

Coronavirus Preparedness

As you all know, the world is facing unprecedented challenges combatting the Covid-19 Coronavirus. Social distancing strategies and actions are no doubt having significant impacts on the world economy as businesses shut down and normal everyday activities slow to a minimum.

As an industry, we have all begun to take proactive steps to keep our employees safe while continuing to serve our customers effectively. We are fortunate to be in a business where we can work effectively from home and demand for our services tends to be very steady.

At Kemah Capital, we are confident that we are prepared for employees to work remotely with the capability to securely access our systems and maintain the same level of service they would from the office. Our teams are committed to providing our carrier and agency partners excellent service while taking all appropriate precautions.

Consequently, Kemah Capital can remain 100% operational and functional during these unique conditions.

Please continue to reach out to us and take care.
